

AirPlus Portal: How to set up a passkey

Available for all portal roles

1. To set up a passkey, open your user profile in the AirPlus Portal and select “Login settings”.

2. Select “Manage Passkeys”, then “Set Up Passkey”.

AirPlus

3. The setup instructions will now guide you through the following steps.
4. You can give your passkey a custom label. Select “OK” to complete the setup.

Please input your registered passkey's label

5. The next time you sign in, select the passkey option and authenticate with your registered device—no password required.
